For the pond size specifications cited above (FiltoClear/Sets) 1 m delivery head and 5 m 1½" hose were taken into consideration. Larger pumps should be used for longer hose lengths and /or greater delivery heads. Clear Water Guarantee\*<sup>SP.240</sup> in accordance with a Secchi light penetration depth of 1 m. Please note that in case of extreme temperature fluctuations, friction losses for hose lines longer than 5 m or direct sunlight due to the position of the pond (south facing), more intensive planning is required.

**Important note:** When planning a new pond with koi stock, please ensure a minimum pond size of 5m<sup>3</sup>!
