## Extras

### Top 3 sales arguments

- Multifunction implementation for pond, pool, and household
- Maximum suction depth of 2 m
- Complete with extensive range of accessories

### Included in the scope of delivery

#### Universal nozzle

The all-round talent (2–10 mm) reliably removes pond floor debris without vacuuming up the gravel.

#### Special string algae nozzle

With this nozzle strands of string algae can be separated and very easily removed.

#### Flat nozzle

The flat nozzle has rubber lips that permit problem-free wet suctioning of residual water, for instance, or that enable use in the household as dry vacuum.

#### Crevice nozzle

Pollutants can be precisely suctioned between stones and plants.

#### Wastewater discharge

Simply dispose of it as »organic fertiliser« in a flower bed or the sewer.

## Accessories

### Extension discharge set Pondovac

2.5 m hose with connection union and collection bag for coarse debris particles. Not suitable for pond silt!
